# 1 Functions

## 1.1 Authentication

2 Days

Users must log in to use the time tracker application.

## 1.2 Project list

2 Days

Users must be able to view the list of all projects.

## 1.3 Select current project

2 Days

Users must be able to select their current project from the list of all projects.

## 1.4 Persist tracking data

4 Days

The application must write the time users have been working a project to a database.
